

“We create change  
that enhances  
performance”

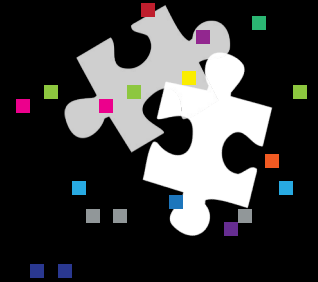

# Business Review

---

OUR EXCLUSIVE OFFER

Management for Design is pleased to offer Parlour Collective practices a complimentary review of their business. This offer is open to those who have joined the Collective at the top tier - Parlour Advocates, Provocateurs and Benefactors.

The review will provide an increased level of transparency and understanding of your business performance – what’s working, what needs to change and the investment of time and resources required to enable you to develop and maximize your business performance.

There is no obligation associated with the review – we will lay out the key improvements and opportunities required with suggested timeframes and support for implementation.

And, we would be delighted if we could play a part in the ongoing success of your business.
